Contents

1. Abstract
2. Problem Statement
3. Objectives
4. Literature Review-I
5. Literature Review-II
6. Gap Analysis
7. Proposed Methodology
8. Technology Stack
9. Timeline
10. References

Abstract

Write 150–200 words describing the project background, motivation, proposed solution and expected outcome.

Problem Statement

Mention:

- Existing problem
- Need of the project
- Target users
- Scope of work

Objectives

- Objective 1
- Objective 2
- Objective 3

Literature Review-I

Create a comparison table of first five research papers with Method, Dataset and Limitation.

Literature Review-II

Summarize remaining five research papers with Method, Dataset and Limitation.

Gap Analysis

Create a table:
Existing Method | Limitation | Proposed Improvement

Proposed Methodology

Insert a flowchart showing complete methodology from Input to Output.

Technology Stack

Mention Programming Language, Framework, Dataset, Hardware and Software used.

Timeline

Insert a simple Gantt chart showing project milestones.

References

Include 10–15 recent IEEE/Scopus references.
